Our Aims & Objectives

1. Aims and Objectives

1.1 Welcome by Dr Kulshrestha's Family Practice

Dear interested party,

This document is designed to provide you with essential information about Dr Kulshrestha's Family Practice, our services, our aims, and the arrangements we have put in place to ensure that our patients receive the highest level of care at all times.

As an independent healthcare provider we are committed to working with the Care Quality Commission, Birmingham and Solihull Clinical Commissioning Group, NHS England and other stakeholders to enhance and improve the quality of all our services, and to improve the patient journey.

The services we offer also vary and are tailored to the needs of the patients in the area. Regardless of location we are committed to achieving the best health outcomes for local people by providing exceptional healthcare in the communities in which we serve.

Putting patients first is at the heart of everything we do, and therefore we encourage patients to ask any member of the team for assistance should they require support or advice during their visit. The multi-disciplinary teams in our centre operate within their respective professional codes of practice, which are underpinned by our own internal regulations and compliance metrics to ensure we deliver service excellence.

Should you wish to provide us with any feedback, comments or commendations during your visit please do not hesitate to contact a member of our team.

With thanks,

Dr Rajendra Kulshrestha, GP Partner [GMC: 2278270]

Dr Sheena Kulshrestha, GP Partner [GMC: 4650739]

Mrs Shashi Kulshrestha, Practice Manager

Our Aims & Objectives

- Ensure patients receive responsive, safe, accessible, quality services.
- Ensure a highly skilled; passionate and dedicated team of caring professionals delivers care.
- Reducing the burden of disease through pro-active health promotion
- Creating effective partnerships to provide safe services, optimise care and improve health outcomes
- Reduce health inequalities
- Deliver value for money, efficient and effective services
- Our employees will always behave in a professional, open and approachable manner at all times and in line with their respective codes of practice.
- By gaining patient feedback and combining with our expertise and knowledge, we are able to put our patients at the heart of everything we do.
- We are committed as a service to developing innovative ways to improve the way in which we service our patients.

1.3 Patient Focused Care

Dr Kulshrestha's Family Practice services a range of people including older people, younger adults and children. Our practice is supported by a dedicated team with the experience and expertise to deal with populations who have a diverse range of cultures and religions, and work with the local communities to understand their needs.

Our services are tailored to the local population and the practice works with commissioners to ensure the services we offer are of the highest possible standard. Dr Kulshrestha's Family Practice adopts a number of methodologies for gaining patient involvement, inclusion and feedback. These include the following:

Suggestions Box	Available within Dr Kulshrestha's Family Practice
Complaints, comments and feedback forms	These leaflets are available at the waiting area.
Friends and Family Tests In-House Patient Survey	Are provided to patients following certain consultations carried out at the practice.
Patient Participation Group (PPG)	Includes a group of patients who are registered at Dr Kulshrestha's Family Practice. The PPG has direct input into the way the practice develop their services.
NHS Choices	Patients are encouraged to leave feedback on the NHS choices website on their experience at Dr Kulshrestha's Family Practice.
Randomised interviews during inspection visits (provider visits)	Consent allowing, patients are asked by regulatory bodies to provide feedback on the practice in relation to the level of care they have received, information provided, and for any suggestions for improvement.
GP Patient Survey	The GP Patient Survey run by NHS England. The survey is sent out to over a million people across the UK. The results show how people feel about their GP practice

1.4 Statement on respecting people who use our services

Dr Kulshrestha's Family Practice engages patients in the design and development of the service and ensures that the services continue to be appropriate and responsive by involving patients during the delivery of the service.

We work closely with local communities and patients already using the service to understand their needs and how best to deliver the most appropriate services to meet those needs. We collect and analyse data on patients and service users to inform us as to who uses the service and which groups are not accessing the service.

We ensure the service is provided for patients who have additional communication or cultural consideration and is continually reviewed and developed. This ongoing process of review includes patients who use the service to ensure that we meet their needs and remain responsive to changes in the local population.

Ongoing patient engagement is achieved through the annual patient surveys and patient participation group. These surveys provide information on how patients value all aspects of the service and what their expectations are.

We will look to involve patients as they use the service, place information notices in the waiting areas and utilise the reception staff to encourage patients to join our Patient Participation Group. It is a useful way of measuring the impact of changes, to improve specific service areas, and allows us to evaluate and continually improve patient satisfaction rates.

We provide information to all patients on services and planned changes in a range of ways including via patient leaflets, patient participation group and our website.

1.5 Statement on Equality, Diversity and Human Rights [EDHR]

We are committed to contributing to a fairer society by promoting equality and good relations for patients, carers, patients' representatives, members of the public, partner organisations, staff and job applicants. As part of our commitment to being a responsible employer we will make sure our workforce has the awareness and ability to meet the different needs of our community's diverse population.

We are committed to:

- Getting rid of unlawful discrimination, harassment and victimisation, and any other behaviour that is not allowed under the Equality Act 2010;
- Promoting equality between people who share a relevant characteristic and those who do not share it;
- Treating people fairly, with respect and dignity, and as individuals

Equality

is about creating a fairer society where everyone can take part and have the opportunity to fulfil their potential.

Diversity

is about recognising and valuing people's differences for the benefit of patients, carers, patients' representatives, members of the public, partner organisations, staff and job applicants.

Human rights

is about making sure patients and staff are safe in healthcare settings, have their privacy protected, and are treated fairly, with dignity and respect.

4. Dr Kulshrestha's Family Practice Structure

4.1 Our Structure

Dr Kulshrestha's Family Practice operates within a circular practice structure. The practice management team and its staff work closely with the GPs to shape the strategy, direction and governance of the practice.

[5. Our Values](#)

Our Values support our Vision, Shape our Culture and reflect what we value the most. We use these as our identity in the services we deliver to our patients

QUALITY CARE

We have a single common definition of high quality care; it is Safe, Effective and a positive Patient Experience delivered by our team

PATIENT SAFETY

Our approach to patient care encompasses our commitment to safety, effectiveness, patient focused, efficiency and equity

PATIENT SATISFACTION

To ensure patient satisfaction we will deliver the right care, keep our patients safe, listen to our patients & provide equitable care

5.1 Our Mission Statement

To deliver high quality and effective health care to ALL of our patients, tailored and responsive to the needs of the local population. We aim to treat our patients with dignity and respect

Over the next 5 years *Dr Kulshrestha's Family Practice* aims to become part of a community-led, multidisciplinary, flexible, integrated team with an appropriate mix of skills and roles. This will mean working in federated organisations, with interconnected clusters of practices and other care providers, spanning primary, secondary and social care.

We plan to deliver care in a more integrated and coordinated manner to include a range of community-based professionals. To achieve this, we will need an expanded, skilled, resilient and adaptable general practice workforce.

Throughout 2022/23 our goal is to be key members of the Birmingham and Solihull Clinical Commissioning Group enabling us to; protect core GP services, provide more complex patient care in the community, combine 'back-office' functions, share organisational learning and co-develop clinical services.

We are now ready
to face the next
challenge and deliver
our ambition for 2023

Birmingham and Solihull
Clinical Commissioning Group

By 2023 we want
to **double the**
number of people
that we care for
and support
